## EXPERIENCE

---

### PUMO TECHNOVATION – Tamil Nadu, India

SAP FICO Intern

July 2025 – Present

- Supported configuration and optimization of SAP FICO modules, including General Ledger (GL), Accounts Receivable (AR), Accounts Payable (AP), and Asset Accounting, improving system accuracy and reliability.
- Analyzed financial data and delivered customized reports using SAP FI tools and SAP Query, enhancing decision-making efficiency.
- Participated in User Acceptance Testing (UAT) and documented enhancements, ensuring smooth system transitions.
- Partnered with cross-functional teams to troubleshoot and resolve SAP issues, reducing downtime and improving process flow.

### NESACH TRAINING AND CONSULTANCY – Remote, India

Associate Product Manager

Nov 2024

- Completed a one-week internship in sales and financial analysis, gaining practical exposure to real-world business operations.
- Evaluated company data to uncover insights into sales performance and financial trends.
- Designed concise reports and visual dashboards to clearly present key findings.
- Enhanced teamwork and communication skills through active collaboration on projects.

Strategy & Analytics Consultant Internship

Nov 2024

- Completed a 4-day internship on business strategy and analytics, gaining hands-on exposure to core business concepts.
- Developed knowledge in strategic decision-making, market research, and problem-solving techniques.
- Worked on case-based assignments to analyze real-world business challenges and propose solutions.
- Strengthened analytical thinking, teamwork, and communication skills through group discussions and presentations.

## PROJECT

---

### APPLICATIONS OF MATHEMATICS IN DIGITAL IMAGE PROCESSING

Feb 2025

- Explored the mathematical foundations of digital image processing through hands-on implementation.
- Used calculus-based methods for edge detection and image reconstruction.
- Designed probabilistic models to achieve noise reduction and improve segmentation accuracy.
- Employed Fourier analysis for frequency-domain image processing.
