PROFILE :

A highly motivated and aspiring graduate in Mechatronics Engineering with strong analytical and critical thinking abilities, along with excellent teamwork and communication skills. Completed mechanical design training with hands-on experience in AutoCAD and pursuing Creo Parametric. Skilled in creating 2D/3D models, technical drawings, and assembly designs.

SKILLS :

- Proficient in AutoCAD design (2D,3D isometric,orthographic,layer,properties)
- Pursuing (Creo Parametric software,partmodelling,GD&t)

TECHNICAL SKILLS :

- Mechanical design, manufacturing, and prototyping
 - Mechatronics system troubleshooting and maintenances
 - Strong problem-solving, teamwork, and project management skills
-

EDUCATION :

- **RVS - TECHNICAL CAMPUS - SULUR,coimbatore,TN** **2021 - 2025**
BE.mechatronics engineering,
CGPA : 7.86
 - **ADAIKALA ANNAI HGHER SECONDARY SCHOOL,viriyur.** **2020 - 2021**
Higher secondary education - 74.5 %
 - **OXFORD MATRIC HIGHER SECONDARY SCHOOL,vadasamapalayam.** **2018 - 2019**
SSLC Education - 65.8 %
-

PROJECTS :

- **Lora Optical Fluorometer For Wireless Monitoring Of Water Quality Parameters In Real Time** - This project proposes the development of a energy-efficient optical fluorometer and nephelometer integrated with LoRa wireless communication technology for continuous, real-time monitoring of key water quality parameters.
-

INTERNSHIPS :

- **Royal Engineering Works - coimbatore** ,Worked as one month intern in production site .
 - **Motherson Automotive Technologies And Engineering - chennai**, worked as one month intern in production site.
-

CERTIFICATIONS :

- **INDUSTRIAL DESIGNING COURSE - PUMO TECHNOVATION PVT LTD .**
 - **I have completed a 6 months of industial designing course**
 - **Paper Presentation & Project** : Presented at the International Conference on Emerging Trends in Future Engineering 2024 (ICETFE'24) on the topic of "Solar Power and Rechargeable EV Car" on 25th April 2024.
