PROFILE SUMMARY

A highly motivated and quick-learning individual with a passion for problem-solving and continuous improvement. Skilled in full-stack development, with hands-on experience in Java, Spring Boot, HTML, CSS, JavaScript, and MySQL. Enthusiastic about applying technical skills to deliver high-quality solutions and grow professionally in the IT industry.

PROJECTS

CONCERDO - YOUR CONCERT PLANNER

[GitHub Link](#)

- Enhanced and responsive webpage using HTML, CSS, and Bootstrap, ensuring the website adapted seamlessly to various screen sizes and devices. Focused on creating an intuitive design that enhanced user experience with easy navigation and aesthetically pleasing layout.
- Optimized page load speeds by compressing and responsive-sizing images, reducing unnecessary resources, and implementing efficient coding practices. Integrated a collapsible navigation menu to provide a clean, clutter-free interface while improving overall site performance and responsiveness.

STUDENT MANAGEMENT SYSTEM

[GitHub Link](#)

- Student Management System using Java, Swing, and MySQL that supports full CRUD operations (Create, Read, Update, Delete) for managing student data. Used JDBC for seamless database connectivity, enabling efficient interaction with the MySQL database for storing and retrieving student records.
- Implemented robust input validation to ensure accurate and secure data entry before saving it to the database, preventing errors and maintaining data integrity. Designed an intuitive user interface with Swing for ease of use and real-time data management.

IDENTITY CREATOR

[GitHub Link](#)

- Developed a Dynamic Identity Card Generator using Spring Boot, MySQL, and HTML/CSS for front-end styling. The application allows users to enter personal information and generate identity cards, with data stored in a MySQL database for easy retrieval and management. Used Spring Boot for backend services, ensuring smooth handling of requests and integration with the database.
- Implemented form validation and data sanitization to ensure accurate and secure input before generating the identity card. The system provides real-time feedback to users, ensuring correct data entry, and allows for the generation of identity cards in a consistent, professional layout.

EDUCATION

KCG College Of Technology, Karapakkam

Aug 2020 - Jun 2024

Bachelor Of Technology - Information Technology

CGPA: 7.98/10

AVM Rajeswari, Virugambakkam

Jun 2018 - april 2020

Higher Secondary Education

Score: 56.8%

SKILLS

Languages: HTML, CSS, Bootstrap, JavaScript, React.js, Java, Swing, Spring Boot

Technologies & Tools: Visual Studio Code, Eclipse, MySQL, Spring Tool Suite (STS)

Database: MySQL, SQL

Soft Skills: Problem-Solving Abilities, Good Communication, Team Player, Quick Learner.

CERTIFICATION

Certified Java Full Stack Developer

Pumo Technovation, Vadapalani
