EXPERIENCE

Senior Technician

The Kanoo Group  09/2023 - 08/2025  UAE (ABU DHABI)

A leading company involved in various sectors including engineering and logistics

- Managed store stock and inventory control using SAP MM module, ensuring accurate material tracking and timely stock updates
- Maintained equipment mobilization and demobilization logs across multiple sites, supporting smooth project operations
- Handled calibration schedules and documentation for critical equipment, ensuring compliance with industry standards
- Supported site teams with data analysis and reporting, including calculating annual hydrocarbon leakage amounts using CIMCS software
- Improved inventory accuracy and reduced material discrepancies through systematic monitoring and reporting

Graduate Engineer Trainee (GET)

Sharda Motors  06/2022 - 08/2023  Chennai

A company engaged in manufacturing and distributing automotive parts and accessories

- Managed the Advanced Shipping Notification (ASN) process, ensuring timely and accurate notifications of incoming shipments
- Utilized ERP systems (SAP) to track shipments and maintain accurate inventory records
- Collaborated with warehouse and distribution teams to optimize storage and handling procedures
- Prepared reports and presentations summarizing logistics performance metrics and improvement initiatives.

Graduate Apprentice Trainee

SL Lumax  04/2021 - 04/2022  Chennai

A firm involved in automotive components and electronics manufacturing

- Assisted in inventory management activities including stock counting, reconciliations, and maintaining accurate records of stock movements
- Collaborated with procurement and logistics teams to ensure timely availability of materials and parts, contributing to reduced lead times
- Utilized ERP systems (SAP) to track inventory levels, monitor stock movements, and generate reports for management review.

SUMMARY

I am a Mechanical Engineer with expertise in SAP MM and inventory management. I thrive in dynamic environments where I can apply my knowledge to enhance operational efficiency. My experience spans various roles, including Junior Engineer, where I managed inventory control and supported project operations through effective data analysis. I am dedicated to continuous improvement and innovative project execution.

EDUCATION

Bachelor of Engineering (Mechanical Engineering)

S.A. Engineering College (Anna University)

 08/2017 - 04/2021  Chennai

Higher Secondary Examination

Sethu Bhaskar Matric. Hr. Sec. School

 2015 – 2017  Chennai

STRENGTHS

SAP MM & ERP Systems

Strong proficiency in SAP MM and ERP systems for effective inventory management

KEY ACHIEVEMENTS

Inventory Management

Successfully managed inventory control processes lead to improved accuracy and reduced discrepancies
