PROJECTS

Employee Management Report using SAP ABAP
Developed a custom SAP ABAP report to display employee details such as ID, name, department, and salary using the ALV (ABAP List Viewer). Implemented selection screens, modularization techniques, and database table integration to enhance data retrieval efficiency.

Customer Invoice Report using SAP ABAP
Created an interactive report to display customer invoice details with drill-down functionality. Retrieved data from the VBRK and VBRP tables and implemented user-specific selection options for document date and billing type.

SKILLS

• Programming Language: SAP ABAP
• Area of Interest: Data Structures and Internet of Things

CERTIFICATIONS

• Non-Conventional Energy Resources – NPTEL
• Introduction to Internet of Things – Infosys Springboard

INTERNSHIP

Vishnupriya Paper Mill Pvt. Ltd.
Gained valuable experience by visiting multiple departments and observing various industrial operations. Acquired knowledge of DC motors and studied the operation of an induction motor mixer used to grind waste paper into new material for production.
